

Ziyue Wang

3230100860@zju.edu.cn (+86) 139-5808-1752

Dormitory 8, Yuquan Campus, Zhejiang University, Hangzhou, China

EDUCATION

Zhejiang University

Sep 2023 – Jul 2027

Core Course: Linear Algebra, Object Oriented Programming, Computer System, Data Structure, Machine Learning, Computer Graphics, Introduction to Computer Vision, Introduction to Data Visualization

PUBLICATIONS

Chuhan Zhang, Zikun Deng, **Ziyue Wang**. *CoordiAct: Benchmarking Vision-Language Models for Coordinated Interaction in Multi-View Visualizations*, to be submitted

RESEARCH EXPERIENCES

State Key Lab of CAD & CG, Zhejiang University, China

Jun 2025 – Dec 2025

Project Name: Multimodal Large Model Data Processing Project

Advisor: Prof. Yingcai Wu

- Dealing with the lack of effective integration and in-depth mining of massive scattered academic papers on data visualization, as well as poor human-computer interaction.
- Developed an interactive system that provides professional recommendations for creating visualization charts based on a large corpus of academic papers on data visualization.

State Key Lab of CAD & CG, Zhejiang University, China

Dec 2025 – present

Project Name: Benchmarking Vision-Language Models for Coordinated Interaction in Multi-View Visualizations

Advisor: Prof. Yingcai Wu

- Generated and optimized a large-scale high-quality dataset for model training, and utilized LLaMA Factory to fine-tune the large language model.
- Involved in developing a UI agent to enhance interaction quality and understanding accuracy to address the poor performance of current vision large models on interactive visualization charts.

INTERNSHIP EXPERIENCES

Assistant Data Project Manager ArcSoft Corporation Limited

Mar 2026 – present

Project Name: Corner Case Data Evaluation System

- Independently developed a system that selects corner case data from existing databases, and conducted evaluations on sample probability and potential risks. Tracked follow-up feedback and system test results to boost the overall robustness and reliability through a QA system.

SKILLS

Programming: C, C++, Lisp Python (Theano), llama Factory,

Language: English, Mandarin Chinese (native)

- GRE: Verbal 151 +Quantitative 170 +Analytical Writing 3.5.
- Fluent in oral English communication.
